## IAESB TECHNICAL MANAGER'S REPORT

This report outlines staff and associated activities for the period July 1 to October 20, 2006.

### Section 1 – IAESB Projects

#### 1.1 Information Technology for Professional Accountants

Following the IAESB's meeting in Santiago in July 2006, an exposure draft of a proposed International Education Practice Statement (IEPS), *Information Technology for Professional Accountants*, was released, with a deadline for submissions of November 15, 2006. To the end of September 2006, the exposure draft had been downloaded 1,576 times.

#### 1.2 Ethics Education

Following formal approval from the IAESB at its meeting in Santiago in July 2006, International Education Information Paper (IEIP) 4, *Approaches to the Development and Maintenance of Professional Values, Ethics and Attitudes in Accounting Education Programs* was published in August 2006.

An exposure draft of a proposed IEPS, *Approaches to Developing and Maintaining Professional Values, Ethics and Attitudes* was released in September 2006, with a deadline for submissions of December 15, 2006, following IAESB approval via electronic ballot. To the end of September, the exposure draft had been downloaded 587 times.

Continued staff time has been required to manage the relationship with the developers of the *Ethics Education Toolkit*, which has been delayed while the draft version of the toolkit was "debugged," and changes made to ensure conformity with IFAC style guidelines. The final version of the toolkit was eventually received on October 20, 2006. Work is now ongoing to finalize packaging and distribution, and it is anticipated that CD-ROMS will be distributed to IFAC member bodies, TAC members firms (and to IAESB and CAG members) at the end of November 2006.

### **1.3 Practical Experience**

Following the IAESB's meeting in Santiago in July 2006, members of the Practical Experience Task Force met once in London and once by conference call to revise the proposed International Education Practice Statement (IEPS) in line with the IAESB's recommendations. In addition, an Issues Paper was prepared for the CAG meeting in Brussels in September 2006.

After considering comments from the CAG, a revised, draft IEPS was posted on the IAESB's electronic discussion board for comments from IAESB members in advance of the current meeting. The revised, draft IEPS is included in the agenda papers for the IAESB's current meeting as Agenda Item 3-1.

### **1.4 CPD**

A detailed Project Scope document for a project to develop an International Education Information Paper (IEIP) on output-based approaches to CPD was prepared by the CPD Task Force for CAG consideration at its meeting in September 2006. Following that meeting, the document was revised to take account of the CAG's comments and suggestions; in particular widening the scope of the project to investigate a variety of approaches to CPD measurement. The revised document is included in the agenda papers for the IAESB's current meeting as Agenda Item 4-1.

The revised Project Scope document has been circulated to the Technical Managers of other IFAC Boards and Committees, and has received strong support both for the need for guidance in this area and for the proposed approach. In addition, initial approaches have been made to three potential consultants/consulting organizations, to investigate their willingness/ability to conduct this project on behalf of the IAESB.

### **1.5 IAESB Strategy Review**

Following the IAESB's meeting in Santiago in July 2006, a small working group consisting of the IAESB Chair, IAESB Deputy Chair, the IFAC Technical Director and the IAESB Technical Manager met in Toronto in September to develop draft strategic and operational plans for consideration by the at their meeting in September 2006.
